An updated drawing/specification has been posted at <http://users.wpi.edu/~skwirl/HardwareGuide/New/Ready/Systems/SGM20.pdf>

The font of title block on Sheet 2 is different from Sheet 1.

Overall sheet prints smaller (larger margins) on Sheet 2 than Sheet 1.

Again - I don't know if this is a problem as almost every detail I'm looking at is different from front to back....If this is ok, I will stop posting it as a comment.

The text on page 2 of 2 refers to a "Nominal" 42 ft opening. It is either 42 ft or not 42 ft. I suggest that we remove the term Nominal. Using the term "nominal" suggests that the opening may be something other. I also suggest that the term Specifications be changed to something other.
